DIRECTORS' REPORT AND STATEMENT OF DIRECTORS' RESPONSIBILITIES
IN RESPECT OF THE FINANCIAL STATEMENTS

We are pleased to submit to our shareholders the semi-annual report of The Capital Holdings Funds plc for the six month period to 30 June 2021.

Activities and business review

The Capital Holdings Funds plc (the "Company") was incorporated in Ireland on 13 March 2014 with registration number 541001 and was authorised as a Retail Investor AIF by the Central Bank of Ireland on 19 December 2014. The Company is an umbrella fund which is comprised of sub-funds, each one with one or more classes of Shares.

As of the date of this report the Company comprised of the following 3 active sub-funds:

- Asian Capital Holdings ("ACH")
- Discovery Capital Holdings ("DCH")
- Leveraged Capital Holdings ("LCH")

For the six month period to 30 June 2021, net assets increased by US\$13m to US\$345m from US\$332m. Of the increase, an amount of (US\$8m) was attributable to share transactions, and an amount of US\$21m was attributable to investment operations.

The detailed results for the period are set out in the statement of comprehensive income on page 15 as well as in the financial statements of the various sub-funds.

Transactions with Connected Parties

In accordance with the Central Bank's AIF Rulebook any transaction carried out with the Company by its Board of Directors, Investment Advisor, Depositary or by delegates or group companies of these entities ("connected parties") must be carried out as if negotiated at arm's length. Such transactions must be in the best interests of the Shareholders. In addition to those transactions, there are also transactions carried out by connected parties on behalf of the Company to which the Directors have no direct access and in respect of which the Directors must rely upon assurances from its delegates that the connected parties carrying out these transactions do carry them out on a similar basis.

Further, Shareholders should refer to the Prospectus which identifies many of the connected party transactions and the general nature of the contractual arrangements with the principal connected parties but it is not exhaustive of all connected party transactions. Shareholders should also refer to the provisions of the Prospectus dealing with conflicts of interest.

Therefore, having regard to confirmations from the Company's management and its relevant delegates, the Directors are satisfied that (i) there are arrangements (as evidenced by written procedures documented by the Board of Directors) in place to ensure that the obligations described above are applied to all transactions with connected parties; and (ii) transactions with connected parties entered into during the period complied with these obligations.

Note 6 details related party transactions in the period as required by IFRS. However, Shareholders should understand that not all "connected parties" are related parties as such latter expression is defined by those International Financial Reporting Standards. Details of fees paid to related parties and certain connected parties are disclosed separately in the statement of comprehensive income.

The 2021 semi-annual report of the Company has been published on the website www.capitalholdings.com.

On behalf of the Board of Directors

1. GENERAL INFORMATION

The Capital Holdings Funds plc (the “Company”) was incorporated in Ireland on 13 March 2014 and was authorised as a Retail Investor AIF by the Central Bank of Ireland on 19 December 2014.

The Company is an umbrella fund with segregated liability between its sub-funds. The active sub-funds are currently:

- Asian Capital Holdings (“ACH”)
- Discovery Capital Holdings (“DCH”)
- Leveraged Capital Holdings (“LCH”)

2. SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied, unless otherwise stated in the following text.

2.1 Basis of preparation

These financial statements have been prepared in accordance with IFRS and IFRS Interpretations Committee interpretations as adopted by the European Union (“IFRS”) and those parts of the Companies Act 2014 applicable to companies reporting under IFRS.

These financial statements have been prepared on the going concern basis and under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities (including derivative instruments) at fair value through profit or loss.

The preparation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Company’s accounting policies. The areas involving a higher degree of judgment or complexity or areas where assumptions and estimates are significant to the entity’s financial statements are disclosed in Note 5.

The following interpretations are mandatory for the Company’s accounting years beginning on or after 1 January 2021 or later years:

Standards and amendments to existing standards effective 1 January 2021

There are no standards, amendments to standards or interpretations that are effective for annual periods beginning on 1 January 2021 that have a material effect on the financial statements of the Company.

New standards, amendments and interpretations effective after 1 January 2021 and have not been early adopted

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after

1 January 2021, and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Company.

2.2 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting used by the Board of Directors and is prepared on a basis consistent with the measurement and recognition principles of IFRS.

A structured entity is an entity that has been designed so that voting or similar rights are not the dominant factor in deciding who controls the entity, such as when any voting rights relate to administrative tasks only and the relevant activities are directed by means of contractual arrangements.

A structured entity often has some or all of the following features or attributes:

- a) restricted activities;
- b) a narrow and well-defined objective, such as to provide investment opportunities for investors by passing on risks and rewards associated with the assets of the structured entity to investors;
- c) insufficient equity to permit the structured entity to finance its activities without subordinated financial support; and
- d) financing in the form of multiple contractually linked instruments to investors that create concentrations of credit or other risks (tranches).

The Company considers all of its investments in other funds to be investments in unconsolidated structured entities. The Company generally invests in structured entities whose objectives range from achieving medium to long term capital growth and whose investment strategy may include the use of leverage. The structured entities are managed by unrelated asset managers and apply various investment strategies to accomplish their respective investment objectives. The structured entities finance their operations by issuing redeemable shares which are generally puttable at the holder’s option and entitle the holder to a proportional stake in the respective fund’s net assets. The Company holds redeemable shares in each of its structured entities.

2.3 Foreign currency translation

Functional and presentational currency:

Items included in the Company’s financial statements are measured in US dollar for all sub-funds. The US dollar is considered the presentation and functional currency for all sub-funds because it is the currency of the primary economic environment in which the Company operates. It reflects the Company’s main activity of investing in US equities and or US dollar denominated investment companies as well as the currency in which the majority of the Company’s redeemable participating shares are issued.

NOTES TO THE FINANCIAL STATEMENTS

Transactions and balances:

The values of monetary assets and liabilities which are denominated in a foreign currency are translated using the exchange rate at the balance sheet date. Transactions during the year are translated at the rate of exchange prevailing on the date of the transaction. Realised and unrealised gains and losses resulting from the translation of investments, cash and cash equivalents are reflected in the statement of comprehensive income within net gain/(loss) on financial assets and liabilities at fair value through profit or loss.

2.4 Financial assets and financial liabilities at fair value through profit or loss

Classification:

Investments in investment companies have been designated as financial assets at fair value through profit or loss. All other investments are held for trading and are acquired or incurred principally for the purpose of selling or repurchasing in the short term. Investments sold short are liabilities held for trading and as such are considered financial liabilities at fair value through profit or loss.

Recognition, derecognition and measurement:

Investment transactions are recorded on the trade date. Financial assets and financial liabilities at fair value through profit and loss are initially recognised at fair value. Transaction costs are accounted for as expenses in the statement of comprehensive income. Realised and unrealised gains and losses are determined on an average cost basis.

Subsequent to initial recognition, all financial assets and financial liabilities at fair value through profit or loss are measured at fair value. Gains and losses arising from changes in the fair value of the 'financial assets or financial liabilities at fair value through profit or loss' category are presented in the statement of comprehensive income within net gain/(loss) on financial assets and financial liabilities at fair value through profit or loss in the period in which they arise.

Financial assets are derecognised when the rights to receive cash flows from the investments have expired or the Company has transferred substantially all risks and rewards of ownership.

Investments held by the Company are carried at fair value, determined as follows:

Investments in investment companies are initially recognised as financial assets at fair value through profit or loss and are valued on the basis of net asset value ("NAV") per share as reported by the administrators or investment managers of those entities as at the end of the reporting period in accordance with industry practice. Such values may be adjusted by the Board of Directors in its judgment to reflect market movements since the report date and to better reflect the fair valuation of such investment.

For investments other than investment companies, traded on a securities exchange, fair value is generally determined by reference

to last traded prices on the exchange, without adjustment for transaction costs necessary to realise the asset or extinguish the liability. If traded in over-the-counter markets, instruments are stated by reference to prices obtained from dealers or counterparties.

Forward foreign exchange contracts are considered financial assets or financial liabilities at fair value through profit or loss and are recorded on the trade date and are valued at the applicable foreign exchange rates.

Fair value estimation:

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the balance sheet date. The fair value of financial assets and liabilities traded in active markets (such as publicly traded derivatives and trading securities) are based on quoted market prices at the close of trading on the reporting date. The Company utilises the last traded market price for both financial assets and financial liabilities where the last traded price falls within the bid-ask spread. In circumstances where the last traded price is not within the bid-ask spread, management will determine the point within the bid-ask spread that is most representative of fair value.

Transfers between levels of the fair value hierarchy:

Transfers between levels of the fair value hierarchy (if any) are deemed to have occurred at the beginning of the reporting period.

Investments in investment funds:

When investing in investment funds, the Company typically invests in funds that are not regulated.

A copy of the full portfolio of each sub-fund at the end of the reporting period, including a statement of changes made to the portfolio of each sub-fund during the period, can be obtained on request by investors free of charge at the office of the Administrator.

2.5 Cash and cash equivalents

Cash and cash equivalents include cash at current bank accounts, cash held on deposit, money market instruments, and bank overdrafts. Borrowing costs are recognised immediately as an expense.

The statement of cash flows is presented using the indirect method.

2.6 Margin accounts

Margin accounts represent margin deposits held in respect of financial derivative instruments.

2.7 Due from and due to investment companies and brokers

Amounts due from and due to investment companies and brokers represent receivables for securities sold and payables for

securities purchased that have been contracted but not yet settled or delivered at the end of the reporting period, respectively.

2.8 Prepayments on investments

Investments are recognised and derecognised on the trade date where a purchase or sale is made under a contract whose terms require delivery within the timeframe established by the market concerned, are initially measured at cost, including transaction costs.

2.9 Other accounts receivable

Other accounts receivable are measured at their nominal value.

2.10 Borrowings from bank

Borrowings from bank are recognised at fair value net of transaction costs incurred. Borrowing costs are recognised immediately as an expense.

2.11 Other accounts payable and accrued expenses

Other accounts payable and accrued expenses are measured at their nominal value.

2.12 Redeemable participating shares

Redeemable participating shares are redeemable at the shareholders' option at either the end of the month or the end of the calendar quarter (depending on the sub-fund) on giving a certain number of days notice (depending on the sub-fund as specified in the Prospectus) and are classified as financial liabilities. The cost of distributions on these shares, if applicable, is recognised in the statement of changes in net assets attributable to holders of redeemable participating shares. Redemptions are paid at the NAV of the respective class of shares as of the close of business of such date of redemption. Payment shall be made as soon as practicable but in any event no later than 30 days following the applicable redemption date. Redemptions are normally paid in cash but, at the sole discretion of the Company, the Company may elect to distribute securities in kind.

The Company from time to time repurchases its own shares at a discount to the then prevailing NAV per share. The surplus on repurchases of own shares, over and above the redemption fee and the commission paid to the Company's Agent, are recognised in the statement of comprehensive income.

2.13 Interest income and expense

Interest income and expense are recognised in the statement of comprehensive income for all debt instruments using their nominal values.

2.14 Dividends

Dividend income and expense are recognised on the ex-dividend date and when the right to receive payment is established. Dividend income is shown gross of withholding taxes. The withholding taxes are shown separately in the statements of comprehensive income.

2.15 Expenses

Expenses are charged to the statements of comprehensive income on an accrual basis. Expenses charged at the Company level are allocated to the various sub-funds and the individual classes based on the classes' relative NAVs.

2.16 Soft commissions

The Company or its Investment Advisor does not receive any soft commissions.

2.17 Taxation

Under current law and practice the Company qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended (the "TCA"). On that basis, it is not chargeable to Irish tax on its income or gains. However, Irish tax may arise on the occurrence of a "chargeable event". A chargeable event includes any distribution payments to shareholders or any encashment redemption, transfer or cancellation of shares and any deemed disposal of shares for Irish tax purposes arising as a result of holding shares for a period of eight years or more.

No Irish tax will arise in respect of chargeable events in respect of a shareholder who is an Exempt Irish Investor (as defined in Section 739D of the TCA) or who is neither Irish resident nor ordinarily resident in Ireland for tax purposes at the time of the chargeable event, provided, in each case, that an appropriate valid declaration in accordance with Schedule 2B of the TCA is held by the Company or where the Company has been authorised by Irish Revenue to make gross payments in absence of appropriate declarations.

Distributions, interest and capital gains (if any) received on investments made by the Company may be subject to withholding taxes imposed by the country of origin and such taxes may not be recoverable by the Company or its shareholders.

3. CAPITAL MANAGEMENT POLICES AND PROCEDURES

The Company is established as an umbrella investment company and the investment objectives and policies for each sub-fund are formulated by the Company at the time of creation of each sub-fund and are specified in the relevant Annex to the Prospectus.

Under its two tier system, the Company does not invest directly, but operates through a variety of investment vehicles. Generally, each such investment vehicle is advised by a principal portfolio manager and its team, allowing the Company to benefit from the diversity and experience of professional portfolio managers (the "Managers"). The investment activities of the Company include a wide range of specialised approaches and techniques used by several Managers, who are allowed to operate within their area of expertise with minimal exposed limitations. The Company does not supervise or control the decisions of the Managers, but adds or withdraws capital according to its strategy and its judgment of their performance.

NOTES TO THE FINANCIAL STATEMENTS

The Board of Directors monitors and reviews compliance of the investment activities with the principal objectives stated in the Prospectus. The Company's objectives, policies and processes for managing capital are unchanged from the preceding reporting period and the Company has complied with them.

The amount of redemptions that the Company may accept at each redemption date is not limited by a gate, apart from in respect of Class C shares. The Company endeavours to manage the liquidity profile of its assets with the aim of being able to meet envisaged redemption or repurchase requests and pay redemption or repurchase proceeds, provided that redemption or repurchase of shares and payment of redemption or repurchase proceeds may be delayed or suspended as a result of limitations and/or emergencies described in the Prospectus.

Under certain circumstances, as described in the Prospectus, the Company has the power to suspend the right of the holders of shares to require the Company to redeem shares and/or to pay redemption proceeds.

The Company may seek to hedge against currency fluctuations of any class of shares, provided that hedging instruments are available on a timely basis and on acceptable terms.

4. DETERMINATION OF NET ASSET VALUE FOR SUBSCRIPTIONS AND REDEMPTIONS

Net Asset Value (NAV)

The following note sets out the basis of determination of the NAV used for subscriptions and redemptions during the year which may differ from the basis used in the preparation of these financial statements. The NAV of the Company at the close of the last business day of any month is the then aggregate fair market value of the Company's total assets minus its liabilities, other than those attributable to holders of redeemable participating shares, divided by the number of shares then outstanding. In particular (a) listed securities are taken at the last reported bid price (for financial assets) or the last traded ask price (for financial liabilities) on the principal exchange on which they are traded (b) unlisted investments are valued with reference to an independent pricing source, taking into account quotes obtained from dealers and/or market makers, or else the fair market value as determined by the Board of Directors, and (c) investments in sub-funds are taken at their latest reported net asset values, which may be adjusted by the Board of Directors in its judgment to reflect market movements since the report date, by reference to a recognised market index.

Estimation

Because of the nature and scope of the Company's assets, the complexity of their valuation in certain cases, and the inevitable delays in reporting by portfolio managers, the monthly calculations of the NAV of each class of shares by the Administrator are estimates according to its best judgment (following the method above described and set out in detail in the Prospectus and the

Memorandum and Articles of Incorporation) which may not necessarily correspond with the actual NAV on the relevant date. However, the Company does not make retroactive adjustments in the NAVs previously used for subscriptions and redemptions. Therefore, such transactions are final and binding when made notwithstanding any different later determination. Additionally, the investment companies partly or wholly owned by the Company are typically not publicly traded and management's determination of valuation is considered a fair value estimate. The ultimate amount to be received upon a sale of these investments may differ from the estimates.

5. FINANCIAL ASSETS AND FINANCIAL LIABILITIES AT FAIR VALUE THROUGH PROFIT OR LOSS

5.a. Financial assets and liabilities at fair value through profit or loss

The Company classifies fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1: Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.

Level 2: Inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly such as net asset values reported by the administrators of the investment companies in which the Company has invested.

Level 3: Inputs are unobservable inputs for the asset or liability. This includes financial assets or liabilities for which the Board of Directors made fair value adjustments because of the illiquidity of such financial assets and liabilities.

Level 3 valuations are reviewed on a periodic basis by the Company's Board of Directors. The Board of Directors considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognised as standard within the industry. The main technique used in fair valuing the level 3 assets has been to apply a discount to the corresponding Level 3 valuations as best estimated by the Board of Directors. In selecting the most appropriate valuation model the Board of Directors performs back testing and considers which model's results have historically aligned most closely to actual market transactions.

If any part of an investment fund is considered to be a Level 3 asset, the entire holding is reported below as Level 3.

In order to avoid double charging of fees on cross investments in sub-funds, the Investment Advisor has agreed to rebate the full amount of advisory fees and performance fees charged on cross investments in any of the sub-funds. The rebate amount is shown in the statement of comprehensive income under Fee rebate.

5.d. Forward foreign exchange contracts

The Company enters into forward foreign exchange transactions for the Euro Class B shares, normally with the aim of seeking to hedge the Euro exposure back to the US dollar. Forward foreign exchange contracts are held for trading and are valued at the forward rate and are marked to market on the valuation date.

Included under financial liabilities at fair value through profit or loss at 30 June 2021 are the following forward foreign exchange contracts that were outstanding with Citco Bank Nederland NV, Dublin Branch, an affiliate of the Administrator:

	Purchases €000	(Sales) US\$000	Maturity date	Unrealised appreciation/ (depreciation) US\$000

Total				2,758

6. RELATED PARTY TRANSACTIONS

The following parties should be considered related parties because together they ultimately control the Company: the members of the Board of Directors and LCH Investments NV (including its Board of Directors) in its capacity as Investment Advisor.

Additionally, the following parties, having transactions with the Company, are related because they are affiliated to one of the sponsoring institutions or one of the Directors of the Company:

- Edmond de Rothschild (Suisse) SA: in its capacity as Swiss Paying Agent (annual fee €8,000; 2020: €10,000) and its capacity as Agent of the Company;
- Edmond de Rothschild Asset Management (Suisse) SA: in its capacity as Swiss Representative of the Company (annual fee €3,000; 2020: €3,000). With effect from 19 June 2020 the activities of Edmond de Rothschild Asset Management (Suisse) SA have been incorporated with those of its parent company Edmond de Rothschild (Suisse) SA;
- KB Associates: as service provider to the Company (annual fee €189,000; 2020: €189,000);
- Londinium Ltd: as service provider to the Company (annual fee nil; 2020: €25,000). Effective from 30 November 2020 the service agreement with Londinium Ltd was terminated.

Additionally, transactions with any of the sub-funds could be considered related party transactions, since all sub-funds share the same Board of Directors. Transactions with related parties are done on terms that are considered to be in conformity with market rates and are considered to be in the best interest of shareholders.

The total compensation payable to the Agent of the Company in respect of services performed during the period to 30 June 2021 amounted to nil (31 December 2020: US\$3,168) with respect to Edmond de Rothschild (Suisse) SA. The agreement with the Agent of the Company was terminated effective 4 January 2021.

As detailed in the Prospectus some Directors are entitled to receive a fixed annual fee for their services. The total fees payable to these Directors on an annual basis amount to €165,000 (31 December 2020: €165,000).

In order to avoid double charging of fees on cross investments in sub-funds, the Investment Advisor has agreed to rebate the full amount of advisory fees and performance fees charged on cross investments in any of the sub-funds. The rebate amount is shown in the statement of comprehensive income under Fee rebate.

Details of any fees payable to the Investment Advisor to the Company and the Agent are detailed in the respective related party disclosures of each individual sub-fund. No fees were outstanding at the end of the period with respect to any of the other related parties listed above.

7. EXCHANGE RATE

The following exchange rate prevailing at 30 June 2021 was used for ACH: €1.00 = US\$1.1886 and for all other funds €1.00 = US\$1.1857 (31 December 2020: for ACH: €1.00 = US\$1.2301 and for all other funds €1.00 = US\$1.2215).

8. DESCRIPTION OF MATERIAL CHANGES TO THE PROSPECTUS DURING THE REPORTING PERIOD

The agreements with Munnik Opties & Futures bv and Edmond de Rothschild (Suisse) SA as agents of the Company and to make a market in shares for ACH and LCH were terminated effective 4 January 2021.

9. SEGREGATION OF LIABILITY

Under the provisions of the Companies Act the Directors shall maintain for each sub-fund a separate portfolio of assets. As between Shareholders, each portfolio of assets shall be invested for the exclusive benefit of the relevant sub-fund. The Shareholders shall only be entitled to the assets and profits of that sub-fund in which they participate. The Company shall be considered one single legal entity. With regard to third parties, in particular towards the Company's creditors, the Company shall be responsible for all liabilities incurred by a sub-fund exclusively based on the assets of this relevant sub-fund. Among the Shareholders, the liabilities of each sub-fund shall only be incurred to the respective sub-fund. As at the date of the Financial Statements, the Directors are not aware of any existing or contingent liability of any sub-fund of the Company.

NOTES TO THE FINANCIAL STATEMENTS

10. COMPARATIVE FIGURES

Certain comparative figures have been reclassified to conform to current period's presentation.

11. SIGNIFICANT EVENTS AFTER THE END OF THE PERIOD

The Company continues to review the impact of Coronavirus (Covid-19) on its activities and operations, including the impact on service providers. Notwithstanding any impact it may have had on the market value of the investments held by the Company, which are reflected in the published net asset value per share of each sub-fund, Covid-19 has had no direct impact on the Company's activities and operations. The Directors will continue to monitor the Company within the set investment and risk parameters and are continually reviewing the situation in order to navigate the Company through this period of heightened uncertainty.

12. DATE OF APPROVAL OF THE FINANCIAL STATEMENTS

The financial statements were approved by the Board of Directors on 27 August 2021.

ASIAN CAPITAL HOLDINGS
PROFILE

The principal objective of ACH is the appreciation in capital.

ACH predominantly invests indirectly through offshore funds which are wholly or partly owned by ACH. Generally, each offshore fund is advised by a single portfolio manager and its team. The investment activities of the funds thereby comprise a wide range of specialised approaches and techniques used by the managers.

Hence, ACH benefits from the collective services of a group of highly skilled investment managers who are allowed to operate within their area of expertise without imposed limitations. Moreover, due to its two-tier system, ACH is highly flexible in engaging and, when necessary, disengaging the services of investment managers, while at the same time limiting the financial and legal exposure to the size of its investment in an offshore fund.

The recommendation of investment managers is entrusted to the Investment Advisory Committee of the Investment Advisor whose members meet regularly to review and select managers in order to position ACH optimally in changing markets.

ACH started operating on 31 March 1993 in Luxembourg and transferred its assets and liabilities to a sub-fund of the Company on 1 March 2017.

The financial year end of ACH is 31 December. In addition to the annual report, which contains audited financial statements, an unaudited interim report for the six month period to 30 June is also published.

From 1 April 2021, shares are issued by ACH monthly, at net asset value (NAV). Prior to 1 April 2021, ACH issued shares daily, at NAV per share.

Shares may be redeemed to ACH on the last valuation day of each month, provided that a redemption request must be received no later than the 25th calendar day of the month preceding the month for which the redemption is requested.

ASIAN CAPITAL HOLDINGS
NOTES TO THE FINANCIAL STATEMENTS

1. GENERAL INFORMATION

The Capital Holdings Funds plc (the “Company”) was incorporated in Ireland on 13 March 2014 and was authorised as a Retail Investor AIF by the Central Bank of Ireland on 19 December 2014.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these financial statements are set out in note 2 to the financial statements of The Capital Holdings Funds plc.

3. CASH AND CASH EQUIVALENTS

As at	30/06/21 US\$000	31/12/20 US\$000
Cash at bank:		
Cash US\$	4,446	974
Cash €	51	-
Total cash and cash equivalents	4,497	974

For purposes of the statement of cash flows, cash and cash equivalents comprise cash at current bank accounts, cash held on deposit and bank overdrafts.

During the reporting period, ACH maintained a line of credit with Amathea Lending Designated Activity Company, on which ACH paid an interest rate of 1.45% per annum on amounts drawn down and a commitment fee of 0.50% per annum on the un-drawn portion of the credit line. At the end of the reporting period, the committed line of credit amounted to US\$5 million (31 December 2020: US\$11 million).

ACH has pledged all of its investments as collateral. The sale of such pledged assets requires the release of these assets by the Depository. At the end of the reporting period, ACH had drawn an amount of US\$0.03 million (31 December 2020: US\$0.02 million).

4. FINANCIAL ASSETS AND FINANCIAL LIABILITIES AT FAIR VALUE THROUGH PROFIT OR LOSS

4.a. Financial assets and liabilities at fair value through profit or loss

ACH classifies fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1: Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.

Level 2: Inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly such as net asset values reported by the administrators of the investment companies in which ACH has invested.

Level 3: Inputs are unobservable inputs for the asset or liability. This includes financial assets or liabilities for which the Board of Directors made fair value adjustments because of the illiquidity of such financial assets and liabilities.

Level 3 valuations are reviewed on a periodic basis by the Company’s Board of Directors. The Board of Directors considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognised as standard within the industry. The main technique used in fair valuing the Level 3 assets has been to apply a discount to the corresponding Level 3 valuations as best estimated by the Board of Directors. In selecting the most appropriate valuation model the Board of Directors performs back testing and considers which model’s results have historically aligned most closely to actual market transactions.

If any part of an investment fund is considered to be a Level 3 asset, the entire holding is reported below as Level 3.

DISCOVERY CAPITAL HOLDINGS PROFILE

The principal objective of DCH is the appreciation in capital through gaining exposure to underlying funds who are in a development phase and in underlying funds with limited history and in managers of underlying funds with small amounts of assets under management. DCH has not paid any dividend since its inception.

Under its two-tier system, DCH does not invest directly but operates through offshore funds which are wholly or partly owned by DCH. Generally, each offshore fund is advised by a single portfolio manager and its team. The investment activities of the funds thereby comprise a wide range of specialised approaches and techniques used by the managers.

Hence, DCH benefits from the collective services of a group of highly skilled investment managers who are allowed to operate within their area of expertise without imposed limitations.

Moreover, due to its two-tier system, DCH is highly flexible in engaging and, when necessary, disengaging the services of investment managers, while at the same time limiting the financial and legal exposure to the size of its investment in an offshore fund.

DCH's investment policy includes conferring assets on portfolio managers who are in a development phase and in investment vehicles with limited history and on managers with small amounts of assets under management.

The recommendation of investment managers is entrusted to the Investment Advisory Committee of the Investment Advisor whose members meet regularly to review and select managers in order to position DCH optimally in changing markets.

DCH started operating on 1 February 2000 in Curaçao (as Galilei Fund NV and was renamed Discovery Capital Holdings NV on 10 April 2013) and merged with a sub-fund of the Company on 1 January 2015. Since its inception, DCH has been able to realise a considerable increase in the net asset value per share, substantially above US stockmarket indices and with lower volatility. However, past performance is not necessarily a guide to future performance.

The financial year end of DCH is 31 December. In addition to the annual report, which contains audited financial statements, an unaudited interim report for the six month period to 30 June is also published.

Shares are issued by DCH monthly, at net asset value (NAV). Shares are issued in US dollar. Shares may be redeemed at the end of each quarter with 45 business days' notice at net asset value (in the case of Class C up to a certain maximum as outlined in the prospectus). The redemption of shares may be postponed under certain circumstances, as described in the prospectus.

DISCOVERY CAPITAL HOLDINGS
NOTES TO THE FINANCIAL STATEMENTS

1. GENERAL INFORMATION

The Capital Holdings Funds plc (the “Company”) was incorporated in Ireland on 13 March 2014 and was authorised as a Retail Investor AIF by the Central Bank of Ireland on 19 December 2014.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these financial statements are set out in note 2 to the financial statements of The Capital Holdings Funds plc.

3. CASH AND CASH EQUIVALENTS

As at	30/06/21 US\$000	31/12/20 US\$000
Cash at bank:		
Cash US\$	827	1,286
Cash €	-	1
Total cash and cash equivalents	827	1,287

For purposes of the statement of cash flows, cash and cash equivalents comprise cash at current bank accounts, cash held on deposit and bank overdrafts.

During the reporting period, DCH maintained a line of credit with Amatheia Lending Designated Activity Company, on which DCH paid an interest rate of 1.45% per annum on amounts drawn down and a commitment fee of 0.50% per annum on the un-drawn portion of the credit line. At the end of the reporting period, the committed line of credit amounted to US\$20 million (31 December 2020: US\$23 million).

DCH has pledged all of its investments as collateral. The sale of such pledged assets requires the release of these assets by the Depository. At the end of the reporting period, DCH had drawn an amount of US\$2.03 million (31 December 2020: US\$0.02 million).

4. FINANCIAL ASSETS AND FINANCIAL LIABILITIES AT FAIR VALUE THROUGH PROFIT OR LOSS

4.a. Financial assets and liabilities at fair value through profit or loss

DCH classifies fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1: Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.

Level 2: Inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly such as net asset values reported by the administrators of the investment companies in which DCH has invested.

Level 3: Inputs are unobservable inputs for the asset or liability. This includes financial assets or liabilities for which the Board of Directors made fair value adjustments because of the illiquidity of such financial assets and liabilities.

Level 3 valuations are reviewed on a periodic basis by the Company’s Board of Directors. The Board of Directors considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognised as standard within the industry. The main technique used in fair valuing the Level 3 assets has been to apply a discount to the corresponding Level 3 valuations as best estimated by the Board of Directors. In selecting the most appropriate valuation model the Board of Directors performs back testing and considers which model’s results have historically aligned most closely to actual market transactions.

If any part of an investment fund is considered to be a Level 3 asset, the entire holding is reported below as Level 3.

LCH Investments NV is entitled to an amount in cash of 1.5% per annum of the net asset value of Class A Shares and 1.0% per annum of the net asset value of Class C Shares. Such fees accruing on the basis of the net asset value prior to taking into account any accrued performance fees as described below and payable monthly.

The Investment Advisor is entitled to a performance fee calculated in respect of each calendar year payable in cash of 5% of the net realised and unrealised appreciation in the NAV of Class A Shares and Class C Shares (taking into account realised and unrealised gains and losses, and expenses) subject to a “high water mark” provision. This means that no performance fee is accrued or paid until the NAV per Share on which the performance fee was previously accrued and paid has been surpassed. This fee will accrue monthly and be payable at the end of the financial year to which such fee relates (or upon a redemption with respect to redeemed Shares).

8. ADMINISTRATION FEES

The Administration fees are calculated based on the net assets of DCH at the last business day of each month. The per annum fee rates were as follows: 0.04% on the first US\$50 million, 0.03% on the next US\$50 million and 0.02% on net assets in excess of US\$100 million.

LEVERAGED CAPITAL HOLDINGS PROFILE

The principal objective of Leveraged Capital Holdings (“LCH”) is the appreciation in capital through investment in equity strategies, both long and short, and to a lesser extent in other strategies, including global macro. LCH has not paid any dividend since its inception.

Under its two-tier system, LCH does not invest directly but operates through offshore funds which are wholly or partly owned by LCH. Generally, each offshore fund is advised by a single portfolio manager and its team. The investment activities of the funds thereby comprise a wide range of specialised approaches and techniques used by the managers. Hence, LCH benefits from the collective services of a group of highly skilled investment managers who are allowed to operate within their area of expertise without imposed limitations.

Moreover, due to its two-tier system, LCH is highly flexible in engaging and, when necessary, disengaging the services of investment managers, while at the same time limiting the financial and legal exposure to the size of its investment in an offshore fund.

The recommendation of investment managers is entrusted to the Investment Advisory Committee of the Investment Advisor whose members meet regularly to review and select managers in order to position LCH optimally in changing markets.

LCH started operating on 30 November 1969 in Curaçao (as Leveraged Capital Holdings NV) under the sponsorship of the Edmond de Rothschild Group and merged with a sub-fund of the Company on 1 January 2015. ECH merged its operations with LCH with effect from 1 March 2020 and TCH merged its operations with LCH with effect from 1 April 2020.

Since its inception, LCH has been able to realise a considerable increase in the net asset value per share, substantially above US stock market indices and with lower volatility. However, past performance is not necessarily a guide to future performance.

The financial year end of LCH is 31 December. In addition to the annual report, which contains audited financial statements, an unaudited interim report for the six-month period to 30 June is also published.

From 1 April 2021, shares are issued by LCH monthly, at net asset value (NAV). Prior to 1 April 2021, LCH issued shares daily, at NAV per share. Shares are issued in US\$ (Class A) and Euro (Class B).

LCH will seek to hedge against currency fluctuations of the Class B shares, provided that hedging instruments are available on a timely basis and on acceptable terms.

Shares may be redeemed at the end of each quarter with 45 business days’ notice at net asset value. The redemption of shares may be postponed under certain circumstances, as described in the prospectus.

LEVERAGED CAPITAL HOLDINGS
NOTES TO THE FINANCIAL STATEMENTS

1. GENERAL INFORMATION

The Capital Holdings Funds plc (the “Company”) was incorporated in Ireland on 13 March 2014 and was authorised as a Retail Investor AIF by the Central Bank of Ireland on 19 December 2014.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these financial statements are set out in note 2 to the financial statements of The Capital Holdings Funds plc.

3. CASH AND CASH EQUIVALENTS

As at	30/06/21 US\$000	31/12/20 US\$000
Cash at bank:		
Cash US\$	17,835	7,373
Cash €	439	1
Total cash and cash equivalents	18,274	7,374

For purposes of the statement of cash flows, cash and cash equivalents comprise cash at current bank accounts, cash held on deposit and bank overdrafts.

During the reporting period, LCH maintained a line of credit with Amathea Lending Designated Activity Company, on which LCH paid an interest rate of 1.45% per annum on amounts drawn down and a commitment fee of 0.50% per annum on the un-drawn portion of the credit line. At the end of the reporting period, the committed line of credit amounted to US\$40 million (31 December 2020: US\$47.5 million).

LCH has pledged all of its investments as collateral. The sale of such pledged assets requires the release of these assets by the Depository. At the end of the reporting period, LCH had drawn an amount of US\$0.04 million (31 December 2020: US\$0.03 million).

4. FINANCIAL ASSETS AND FINANCIAL LIABILITIES AT FAIR VALUE THROUGH PROFIT OR LOSS

4.a. Financial assets and liabilities at fair value through profit or loss

LCH classifies fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1: Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.

Level 2: Inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly such as net asset values reported by the administrators of the investment companies in which LCH has invested.

Level 3: Inputs are unobservable inputs for the asset or liability. This includes financial assets or liabilities for which the Board of Directors made fair value adjustments because of the illiquidity of such financial assets and liabilities.

Level 3 valuations are reviewed on a periodic basis by the Company’s Board of Directors. The Board of Directors considers the appropriateness of the valuation model inputs, as well as the valuation result using various valuation methods and techniques generally recognised as standard within the industry. The main technique used in fair valuing the Level 3 assets has been to apply a discount to the corresponding Level 3 valuations as best estimated by the Board of Directors. In selecting the most appropriate valuation model the Board of Directors performs back testing and considers which model’s results have historically aligned most closely to actual market transactions.

If any part of an investment fund is considered to be a Level 3 asset, the entire holding is reported below as Level 3.

LCH Investments NV is entitled to an amount in cash of 1.5% per annum of the net asset value of Class A shares and Class B shares and 0.25% per annum of the net asset value of Class X shares. Such fees accruing on the basis of the net asset value prior to taking into account any accrued performance fees as described below and payable monthly.

The Investment Advisor is entitled to a performance fee calculated in respect of each calendar year payable in cash of 3% of the net realised and unrealised appreciation in the NAV of Class A shares and Class B shares (taking into account realised and unrealised gains and losses, and expenses) subject to a “high water mark” provision. This means that no performance fee is accrued or paid until the NAV per Share on which the performance fee was previously accrued and paid has been surpassed. This fee will accrue monthly and be payable at the end of the financial year to which such fee relates (or upon a redemption with respect to redeemed Shares).

8. ADMINISTRATION FEES

From 1 April 2021, the Administration fees are calculated based on the net assets of LCH at the last business day of each month. The per annum fee rates were as follows: 0.05% on the first US\$50 million, 0.04% on the next US\$50 million and 0.03% on net assets in excess of US\$100 million. The net assets of LCH for this purpose shall exclude the amount of LCH’s investment in DCH.

Prior to 1 April 2021, the Administration fees are calculated based on the net assets of LCH at the last business day of each month. The per annum fee rates were as follows: 0.0575% on the first US\$50 million, 0.0475% on the next US\$50 million and 0.0350% on net assets in excess of US\$100 million. The net assets of LCH for this purpose shall exclude the amount of LCH’s investment in DCH (up to 31 March 2020, LCH’s investment in TCH and DCH).
